### DETAILED ACTION

Claims 14-18 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected inventions, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 03/03/08.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 10-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Schubert et al ( AV or AW or AX reference in form 1449).

The references disclose the polymer of transition metal bridged units of the claimed formula (figures 1,2 and 6 of "AV; figures 2 and 5 of AW; and figure 5 in page 1160 of AX reference) in that if the claimed A=2, T=O, Q=CH<sub>2</sub>CH<sub>2</sub>, R=hydrogen, M=Co, Ni, Fe or Zinc ions, and the claimed Z= acetate then the figures in the references are read on that of the claims.

The disclosure is objected to because of the following informalities: In the specification at page 2, line 29, the chemical term "CH<sub>3</sub>OO-" is incorrect.

Appropriate correction is required.

Art Unit: 1796

Claim 10 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 10 is rejected for the reasons set forth in the objection to the specification.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Duc Truong whose telephone number is 571-272-1081. The examiner can normally be reached on Monday-Friday.
